Instantaneous and historical temperature effects on α-pinene emissions in Pinus halepensis and Quercus ilex
Josep-Salvador Blanch, Joan Llusia, Ulo Niinemets, Steffen M. Noe and Josep Penuelas .................................................. 1-6

Inhibitory effect of antioxidants on the benz[a]anthracene-induced oxidative DNA damage in lymphocyte
Yoo-Na Seo and Mi-Young Lee .................................................................................................................. 7-10

Statistical tools for analysing the data obtained from repeated dose toxicity studies with rodents:
A comparison of the statistical tools used in Japan with that of used in other countries
Katsumi Kobayashi, K. Sadassivan Pillai, Soma Guhatakura, K.M. Cherian and Mariko Ohnishi ................... 11-16

Effect of butyl benzyl phthalate on life table-demography of two successive generations of
cladoceran Moina macrocopa Straus
Jin-Xia Wang, Yi-Long Xi, Ke Hu and Xiao-Bo Liu ............................................................................. 17-22

In-vitro antimicrobial activity and synergistic/antagonistic effect of interactions between
antibiotics and some spice essential oils
Sevil Toroglu ............................................................................................................................................ 23-29

Utilization of lipids during aestivation of the African lungfish, Protopterus annectens
A.I. Okafor, C.D. Nwani and F.O. Okereke .......................................................................................... 31-34

Histopathological alterations in hepatopancreas of Gaffarum divaricatum exposed to xylene,
benzene and gear oil-WSF
Shirley Agwuocha, B.G. Kulkarni and A.K. Pandey ........................................................................... 35-38

Studies on oxidative stress induced nerve conduction deficits in cigarette smokers
Vipul Kumar Singh, Manoj Kumar Pathak, Vipin Bihari, Jyoti, Devendra Kumar Patel,

Survey of nitrogen use pattern in rice in the irrigated rice-wheat cropping system of Haryana, India

Screening and detection of biomarkers in chickpea plants exposed to chromium and cadmium
Mather Ali Khan, Mauji Ram, Prabakar Jha, M. Mobeen Ahmad, Pravej Alam, Kamaluddin,
Afar Ali, Usha Kiran and M.Z. Abdin ........................................................................................................ 51-55

Role of bioinoculants and organic fertilizers in fodder production and quality of leguminous tree species
Seema Mishra, Satyawati Sharma and Padma Vasudevan .............................................................................. 57-64

Distribution of diatom Pseudo-nitzschia and dinoflagellates of Dinophysis spp along coast off Goa
A.A.S. Alkawri and N. Ramaiah .................................................................................................................. 65-70
